21 November 2007

**To Whom It May Concern:**

I have been to many a function where Michele Bremer has done the music and never have I been disappointed. Her ability to read a crowd and play the appropriate music and get them into the acquired mood has been commented on by many.

As Captain of the elite Selborne Golf Club I had no hesitation of requesting to management that we use her services at my Captains Dinner which was held on Saturday 17<sup>th</sup> November 2007. Needless to say, the function was a huge success and she managed to entice some really old bodies onto the dance floor for hours with her choices of music. The CEO, Dr John Lamola himself was the in the last group of us to leave after 2:00pm.

Michele also did the music at my wedding in July 2006 on my farm which is still spoken about. Other venues where I have heard Michele operate have been at Sezela Club, the Bell and Anchor Restaurant, the Scottburgh Club and various 21<sup>st</sup> birthday parties and weddings.

Her equipment is of very high standard and quality and I recommend her very highly for any function. Please do not hesitate to contact me for any further information

Regards,
